

The default Menu presented when the Allegheny County Resources Map is opened is the Map Legend under the Details Tab. By scrolling over the buttons, one can see the different views that can be displayed: Legend; Contents and Details about the Map.

Notice that the active button is highlighted. The Legend Button is on the left, the Contents Button is in the middle and the Button that displays information about the map is on the left. One can toggle between these Detail Menus by clicking on the respective button.

Additionally, the items listed in the Contents Menu can be expanded and contracted by left clicking on the feature. Features can be turned on and off by clicking the check box positioned in front:

One can toggle from the Details Tab to the Basemap Tab with a left mouse click. The Basemap Tab provides a variety of backdrops for the map display, depending on the purpose of the map. The default basemap is Topographic.

One can Pan and Zoom about the map using the mouse. If one has a mouse wheel, it can be used to zoom in and out, otherwise, the **+** and **-** Buttons can be used. Holding down the left mouse button and dragging it enables one to pan the map. Some data is scale sensitive so that as one zooms in and out more or less or different data will be displayed. If the features are turned on, addresspoints and parcel ID's will display as one zooms in close. By left clicking on a parcel, a hyperlink to the Real Estate Pages will appear, clicking the "Real Estate Website" hyperlink will display all of the pages from the Real Estate website.
